Regional Chair's Report

- The chair organised and attended two CPD/Social events last November and December:
 - o On 29/11/2018, Professor Philip Watson, the director at HLM Architects delivered a talk about PeopleX: Impact of Human-Centred Design. CIOB shared the event expenses.
 - o On 14/12/2018, Professor John Preston from the University of Essex delivered a talk about Grenfell Tower: 'stay put' and preparedness.

Both events were successful regardless the low number of attendees, also it was noticed that most attendees were academic staff and students from SOBEE and less ATs from the industry.

- Low carbon daylight CPD seminar will be held this month on 29/01/2018. The chair can not attend and we need volunteers from the committee to be there. The committee banners and table clothes are in NT building, office no' 110 in case you need them for this event.
- Matthew and the chair both will be attending the National Careers Guidance Show on 7th March at Centenary Pavilion, Leeds.

Finally, due to PhD study commitments, the chair will be less active for the next 6 months, mainly on arranging or organising events.

Regards

Gihan Badi

Chair of CIAT Yorkshire Region
